OREGON'S PRIDE STRAIN

POLYANTHUS PRIMROSES
HAND POLLINATED SEED

PER PKT.

- | | |
|---|--------|
| SERIES 1—MIDAS | \$5.00 |
| Sunshine yellows. Bold, brilliant, breathtaking. Many of these deep gold and orange primroses are monotonous, entirely sans contrasting eye, which adds immeasurably to their charm. We wonder if in the whole world there are yellow polyanthus to equal these. | |
| SERIES 2—FIESTA | 2.00 |
| Sunrise, sunset, wallflower shades. Dramatic companions to the sunshine series. Here are flames, rust, peach henna, etc. | |
| SERIES 3—Pastels predominating. Here are the delicate apple blossom, buff, orchid, white, and many other light tints. In this series we include our new frilled or ruffled polyanthus, not ready as yet to be listed separately. These ruffled beauties run strongly to orchid and have an ethereal frosted texture. | 2.00 |
| SERIES 4—Fuchsia and cineraria shades. Not uniformly as large flowered as our other series, but here are the rich plums, purples, violet, heliotrope and related shades. There are large delicate pinks and many shades of blue. The delft blues we hope to be able to offer separately in the not too far distant future. | 2.00 |
| SERIES 5—Mixed colors. Since it is our conviction that best results and most pleasure from primroses is obtained from new plants each year, this is our answer in order that you may have hundreds of primroses of superlative quality at a minimum of expenditure. This group contains some of each of the above categories and many new, rare blends not yet fixed. | 1.00 |

SEEDLINGS

For those gardeners whose time and patience is limited, we offer husky four month old seedlings from the flats. These are ready for delivery late June or July and large enough for their permanent place in the beds or borders. As we offer only 20,000 to 30,000 seedlings each season, order early to avoid disappointment.

	Doz.	Per 100
SERIES 1—Sunshine yellow	\$1.50	\$9.00
SERIES 2—Sunrise, sunset	1.25	7.00
SERIES 3—Pastels predominating	1.25	7.00
SERIES 4—Fushia shades	1.25	7.00
SERIES 5—Mixed colors	1.00	5.50

"The polyanthus primroses we received from you last year were UNIFORMLY extremely good."

That is true of our Oregon's Pride Polyanthus primroses, and it is a unique distinction. For years all our time, energy, research and inspiration have centered on these polyanthus and the results are gratifying. Handsome foliage, tall, stout stems, amazing size of floret, new, rare colors, and a plush-like texture, combine to make this a ribbon winning strain. Discriminating selection of parent plants and persistent hand pollinating step up the quality of the strain each generation. Too little ground, and too many years limit the crop, so it is advisable to order early. Also, please do not order these primroses unless you can give them consistent care. They are far too fine to be wasted. Cultural directions with each order.
